

MERIDIAN

HDD

Meridian HDD is proud to offer another option to the HDD industry previously dominated in the US by two companies. In cooperation with XCMG, one of the largest equipment manufacturers in the world, and Underground Magnetics, one of the most advanced HDD locator manufacturers: Meridian HDD is ready to provide contractors a valuable option when purchasing their next HDD rig.

GLOBAL INNOVATION

Meridian HDD introduces the new XZ4055 Directional Drill Developed from the ground up for the global market.

Simple Powerful Affordable

SINCE 2001

XCMG has been designing and producing HDD rigs. Today, XCMG is ranked as the number one producer of HDD rigs outside the US, with more than 20 HDD product offerings ranging from 12 tons to 1360 tons and over 10,000 units sold.

US CUMMINS

Engine	Cummins B4.5 - C155
Rated Power	155 HP
Torque Peak	2200 RPM
Emissions	EPA Tier 4F/Stage V
Fuel Capacity	40 Gal

DANFOSS CONTROLS

Pullback/Thrust Max	44000 lb
Pullback Speed Max	50/80/165 Ft/min
Spindle Torque Max	5500 ft-lb
Spindle Speed Max	100/135/200 rpm

TUFFROD PIPE

Length	10 ft
Joint Diameter	3.1 in
Spindle Torque Max	2.625 in
Pipe Diameter	2.625 in
Weight	121 lb
Bend Radius	145°

DIMENSIONS

Transport Length	21 ft
Width, with cob	6.9 ft
Transport height	8.5 ft
Operating Weight	21000 lb
Entry Angle	10° - 22°

FMC PUMP

Pressure Max	1500 psi
Flow Max	70 gpm
